### Millcreek needs a new motto

MILLCREEK. Since the December 2016 inception of Millcreek's website, we have used the tagline: "Millcreek, Utah's newest city". We've outgrown that saying, and are asking for your help to coin a new one.

We are currently developing a new professional website, and think this is the perfect opportunity to rebrand our city. A memorable motto, slogan, or tagline can be an important part of a city's promotion and economic development.

The first step in the process is for us all to get creative. [Click here](#) or [contact us here](#) by noon next Friday, 5/11, to submit your brainstorm. To help get your juices flowing, here is a sampling of what others have done— the good, the bad and the ugly.

## Western Canyon Rim Emergency Cache Donation Campaign

MILLCREEK. The Canyon Rim community is seeking donations to purchase and equip an emergency cache container in the western part of the area. Granite School District has approved a cache site at Rosecrest Elementary. In the event of an emergency such as the earthquake that will hit our area some day, emergency caches will be an important part of the CERT response.

As an example of what Canyon Rim is seeking to fund, the green box on the right of the picture below is the emergency cache container located at Eastwood Elementary.

Checks should be made payable to Millcreek, include "Rosecrest Cache" in the memo line, and be mailed to City Hall, 3330 S. 1300 E., Millcreek, UT 84106. All funds will be earmarked for this effort and will be held in a separate account for the cache.

## STAGE ONE WATER ADVISORY ISSUED FOR MOST OF MILLCREEK WATER USERS

MILLCREEK. Salt Lake City provides water to the majority of the residents of Millcreek. SLC has issued a Stage 1 Advisory to its water users. This advisory is the first of five stages in the Water Shortage Contingency Plan (or drought plan) and includes suggestions for residents to consider to assist in conserving our precious water resources.

Recommendations include the following suggestions developed by SLC Public Utilities:

- Sign up for a [free water check](#) to determine efficient watering levels
- Adjust sprinkler controllers to reflect the season and weather, including shutting off during rainstorms
- Check sprinkler systems for broken or misaligned spray heads
- Check indoor faucets and fixtures for leaks and repair promptly
- Take advantage of SLC's [water-saving tips](#) and landscape
- Follow SLC's [other tips](#) for indoor and outdoor conservation

## Town Center Discussion Well Attended

MILLCREEK. Almost 200 people came to the community meeting held earlier this week to discuss the potential of a town center in the wedge between Highland Drive, 13th East, and 33rd South. Thank you to all who came. If you missed the meeting and want to share your thoughts please send them to [citycenter@millcreek.us](mailto:citycenter@millcreek.us). Future meetings on this topic will be announced in this newsletter. The public input we've received will be available once the tabulations are completed. In the meantime, check out pictures of this week's event [here](#).
