Town Hall to Address City-Wide Issues

MILLCREEK. This coming Thursday, July 26th, Millcreek city leaders and city staff will hold a town hall meeting with you, the citizens of Millcreek. This is a good opportunity to learn about property taxes, the proposed town center, and what services Millcreek provides. You can also meet our staff -- each an ace in her or his field. (We have been very fortunate to attract such professionals.) Got questions about our fair City? Come and ask them!

The town hall will be held in the Wasatch Jr. High auditorium on Thursday, July 26th, at 6:30 PM.

The City Council meeting has been postponed from its usual Monday meeting to Thursday, the 26th, at 5:30 PM, just prior to the town hall. The Community Reinvestment Agency will hold a brief session at 5PM, just prior to City Council's.

Call to Action from Mayor Jeff Silvestrini and MOCC Chair David Baird concerning Parleys Canyon EIS

To Millcreek:

We need you to comment by August 10th on UDOT's current plans to alter the Parleys Canyon interchange.

UDOT is currently conducting a Preliminary Alternatives analysis for the redesign of every lane of traffic in the mouth of Parley's Canyon, anticipating that in 50 years the incremental traffic will make the current design of I-215, I-80, Parleys Way and Foothill Blvd. ineffective. We've all experienced the frustrating and sometimes dangerous lane merging as we get on the northbound freeway at 3300 South, or we've had to quickly dart between semi trucks as they exit the mouth of the canyon onto I-215 Southbound, amongst about a dozen other dangerous spots as we crest up towards Foothill Blvd.

UDOT is currently evaluating four separate traffic designs to address long term traffic concerns here: udot.utah.gov/parleysEIS. We won't review every alternative design in great detail in this post, but as residents of Millcreek City,

we need your help in this Call to Action expressing opposition to the UDOT plans as proposed.

The plans may severely limit or eliminate the Grandeur Peak Trailhead, along with a considerable risk that Wasatch Blvd may be severely narrowed or eliminated, plus there is a chance that homes along the northern sections of Wasatch Blvd. north of 3300 S. may be at risk.

UDOT's engineers' preliminary designs show that this freeway on ramp will need to be expanded and additional right of way will need to be acquired to build dedicated lanes into the mouth of Parley's Canyon, and similar lane structures continuing north towards Foothill Blvd and westbound I-215 in the mouth of the canyon.

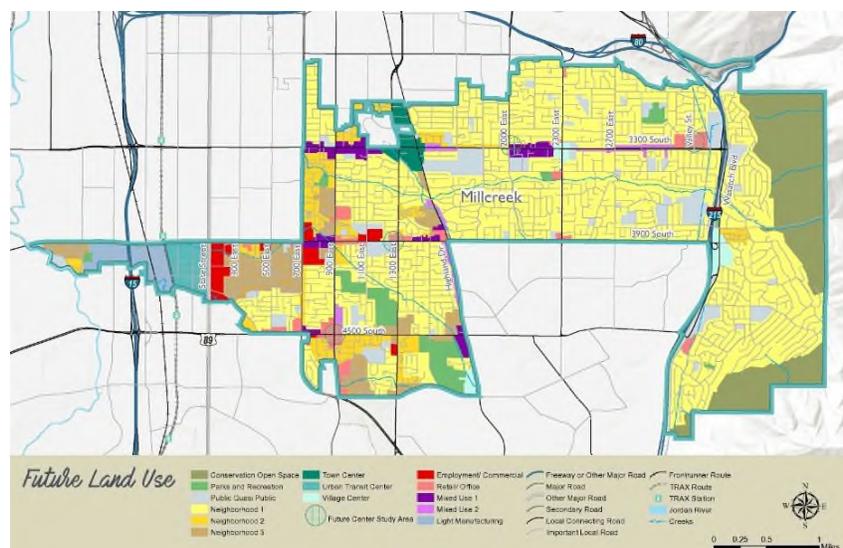

Both the Mount Olympus Community Council and the Mayor have expressed formal opposition to these plans if they have severe impacts on any homeowners in the region or the Grandeur Peak Trailhead. Please note that these plans are very preliminary, with no costs or timelines for construction of any of the four alternatives yet. UDOT is legally required to assess and respond to any and all impacts created by their projects in surrounding communities.

This is where we need your help! We obviously object to any and all plans that require any of these severe neighborhood changes for homes, trailheads, and roads north of 3300 South, as this severe neighborhood impact should have been addressed prior to distributing any of the four alternatives for public comment.

So what can you do to help? **Please join us in voicing formal opposition to these alternatives** by reviewing the plans on the link above, then leaving a voicemail on the UDOT hotline [\(801\) 743-7885](tel:8017437885) and sending an email to parleysEIS@utah.gov. Please voice your concern immediately as comments must be received prior to August 10, 2018. Plus, please join us at the next public meeting on this project, scheduled with the Salt Lake City Council on July 31st at 4 pm (451 S. State Street 3rd floor). There will likely be another set of meetings in the near future with the SL County Council and Millcreek City Council but the dates/times have not been finalized yet. We will post information on these meetings ASAP.

We all endure the frustrating traffic patterns in the mouth of Parley's Canyon, but alternative designs should not be built at the expense of homes and trailheads being removed to make way for more roads. Please respond to our Call to Action and express your disapproval of these threats to the high quality of the neighborhood..

Mayor Jeff Silvestrini
MOCC Chair David Baird

**COMMENT PERIOD FOR DRAFT GENERAL PLAN
OPEN NOW UNTIL AUGUST 24TH**

MILLCREEK. Extensive civic input to date has assisted the City's consultant to prepare a [draft General Plan](#) for review by the entire City. Now until August 24th is the time for you to comment on the draft.

One of several proposed maps, the one above is a proposed Future Land Use Plan. This map is a combination of an inventory of actual existing uses in Millcreek, and the community input we have been soliciting from you since the beginning of incorporation (at dozens of Venture Outdoor events, open houses, and other community events). The map "describes Millcreek's desired future.... [It] identifies locations where different types of land uses are anticipated to occur during the next ten to 20 years, and where the City would support the development of these uses." Please take this opportunity to comment, as we want to make sure you agree that we got it right.

[Click here](#) and scroll to page 11 to read more about the Future Land Use Plan and understand the various categories of land use. [Click here](#) to read more about the General Plan process and to add your comments.

The Draft Plan is continuously being updated and formatted and new versions will be posted as they become available.

Bike Lane to Make Cycling in Mill Creek Canyon Safer

MILLCREEK. Salt Lake County is constructing an uphill bike lane in Mill Creek Canyon. Construction is anticipated to begin August 6th and will stretch through the end of September.

Construction will begin near the Forest Service toll booth and will continue up-canyon for three miles, ending shortly below Log Haven.

Traffic will be condensed to one-way travel on a single lane near active construction zones. Expect short delays, as *all* traffic (including bicycles) will be stopped to allow traffic traveling the opposite direction to pass through a single open lane around construction zones.

The County is "strongly encouraging" cyclists to use other canyons or roadways during construction. Cyclists will be required to stop and wait with cars while single-lane road traffic from the opposite direction is routed around construction.

GARDEN COMPETITION WINNERS ANNOUNCED

The winners of the annual Green Thumb Competition were announced this week. Thank you to everyone for entering. we saw some very beautiful well-kept yards. No gardens from the Mt. Olympus area were entered, but the winners of our other three community council areas are below:

The East Millcreek winner is Peter Brooks at 3386 South 2700 East. This lovely garden is rich in trees and variety of plant specimens. The yard has a wonderful open feel. Peter wasn't present for the award, but his daughters and son accepted from Mayor Silvestrini and Senator Jani Iwamoto.

The winners in the Millcreek area are Richard and Sylvia Nordoffat at 1238 Iris Lane. Their lush lawn, variety of trees, and beautifully kept gardens are augmented by many

lovely roses and colorful annuals..

The winner in Canyon Rim is Richard Andrews at 3020 South 2000 East This beautifully manicured, monochromatic landscape has many mature trees and grasses, with texture and depth of different colors.

Thanks to our judges for taking time to come out and see these beautiful gardens. Thanks also to Mayor Jeff Silvestrini and State Senator Jani Iwamoto for presenting the awards. And most particularly, thank you to Diane Angus, chair of the Millcreek Community Council, for gifting \$100 certificates to Millcreek's own 42nd Street Greenhouse.

WE CAN'T EMPHASIZE THIS ENOUGH...

Hot Asphalt Awareness

When the air temperature is this, asphalt has been measured at this.*

Air Temperature	Asphalt Temperature
77 ⁰	- 125 ⁰
86 ⁰	- 135 ⁰
87 ⁰	- 143 ⁰

*These temperature correlations represent worst scenario variables: direct sun, no wind, very low humidity, and high radiant energy.

At 125° F, skin destruction can occur in 60 seconds.

An egg can fry in 5 minutes at 131° F.
