Kids & Cops Art Contest Winners

Announcements

UPCOMING PUBLIC MEETINGS

Community Council

MILLCREEK. On Monday, the City Council had the opportunity to join Unified Police Department in awarding prizes to the winners of the fourth-annual Kids and Cops Art Competition. In previous years, UPD would host a banquet dinner for the winners and their families. Unfortunately,

Meetings for the Month of September are Cancelled.

due to COVID-19, they had to change things up a bit.

This year's competition had six categories:

Information on Community Councils can be found on the Millcreek website [here](#).

- Anti-Drug
- Anti-Bullying
- Distracted Driving
- Anti-Violence
- Police in my Community

Four of this year's winners attended the meeting. Winners received a restaurant gift certificate, an Apple product, a UPD School Resource Officer Challenge Coin, and a certificate.

The Sorenson Legacy Foundation provided the generous grant that enabled this competition. The Sorenson Legacy Foundation "was created to improve the lives of others and the world in which we live. Founded by the late biotechnology pioneer and entrepreneur James LeVoy Sorenson and his wife, education philanthropist Beverley Taylor Sorenson, the foundation provides support for a wide range of endeavors, from community development and health care to scientific and artistic pursuits.

The Kids and Cops Art Competition grant was given to help foster a relationship of trust and mutual respect between law enforcement and the community, brought together through art as we strive to reach common goals, such as reduced violence, bullying and drugs, and discouraging unsafe practices in our communities such as texting and driving."

The relationship between law enforcement and citizens is important now more than ever before. The Kids and Cops Art Competition is a great way to promote

these positive relationships with children and families, and extends a hand of friendship to the citizens UPD protects.

MILLCREEK. This week, Millcreek kids went back to school. Even though there is an increase in virtual learning, there are still plenty of kids going to school in-person. Now is an important time to remember that with the start of school, we all need to be extra cautious when driving in a school zone.

There is no warning for speeding in school zones, *it's an automatic ticket*. There may not be as many kids out and about, but we must be just as vigilant when driving in a school zone. Watch out for kids and for crossing guards. Finally, don't forget that when a school bus turns on its red flashing lights and the stop arms are extended, drivers must stop and

cannot proceed until the flashing has stopped at the stop arms are withdrawn.

Celebrating the Constitution

MILLCREEK. Susan Ferrin and Elaine Janeway of the Daughters of the American Revolution joined the Millcreek City Council on Monday and proclaimed September 13th-19th as Constitution Week in Millcreek. This year on September 17th marks the 233rd birthday of our nation's Constitution!

The official Proclamation of Constitution Week in Millcreek can be viewed [here](#).

An Update on Millcreek's Roads

MILLCREEK. It comes as no surprise that Millcreek's roads are not in the best shape. Millcreek's Public Works department has been hard at work fixing the myriad of problems that have plagued our streets since before incorporation. While it's impossible to repair everything at once, or in the time frame we want it, significant progress has been made.

Our Public Works department reports that we have **facilitated and completed 171 road hazards** ranging from sink holes, cave-in's, and storm drain repairs in the past year or so. Those are great numbers, and demonstrates some awesome work done by the Millcreek Public Works department.

Remember, we can only fix these problems if we're aware of them. To report a road hazard in Millcreek, you can submit an online [Report a Concern](#) form, or call us at 801-214-2700. For a list of current, upcoming, and completed projects, visit our [Capital Improvement Projects Map](#).

The 3900 South Improvements project team is scheduled to select a contractor this fall. Depending on weather conditions, winter construction is possible but would be minimal. Full roadway reconstruction is scheduled to begin in early 2021.

In preparation for the road reconstruction, the gas and water lines that run under 3900 South are receiving much-needed upgrades. Salt Lake City Department of Public Utilities is working on the water system between 3180 East and Wasatch Boulevard between now and mid-October. Dominion Energy is currently working on the natural gas line between 2300 East and Wasatch Boulevard and is scheduled to wrap up in mid-November.

Residents are encouraged to plan for delays on 3900 South and use alternate routes to avoid utility work.

Visit Millcreek's [website](#) for more information or contact the project team at (801) 509-6639 or 3900southproject@gmail.com.

Deadline for Salt Lake County Property Tax Relief Quickly Approaching

Deadline: September 1, 2020

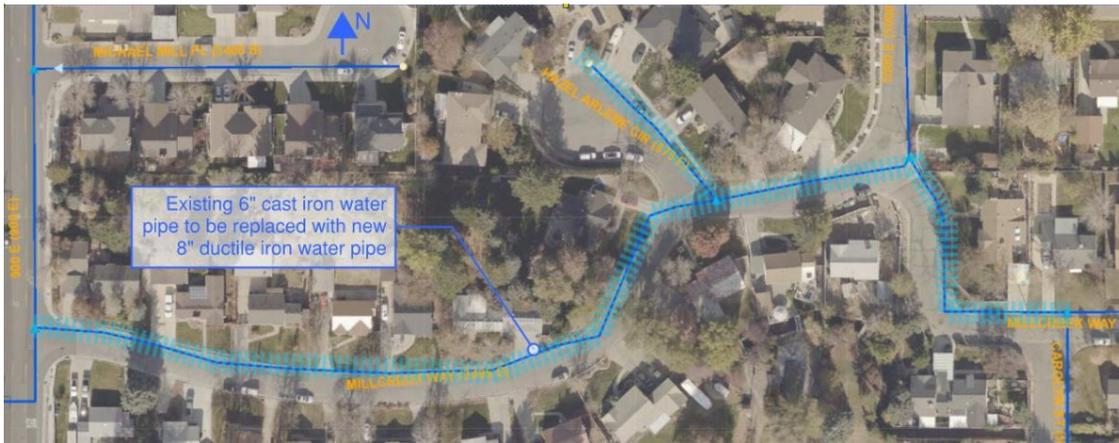

SALT LAKE COUNTY. Due to Covid-19 restrictions, the Treasurer's Office has been limited in its efforts to promote the tax relief programs available to the residents of the County. Staff usually visits senior centers and participates in senior expos and conventions to get the word out. Countywide Council Member Shireen Ghorbani and Treasurer K. Wayne Cushing want to emphasize this worthy cause.

Tax relief is available to certain military veterans, the legally blind in both eyes, those 66 years old and older with annual household income under \$34,168 (known as the Circuit Breaker Program), and those of any age experiencing hardship or who are indigent. If anyone is in this situation, please contact the Treasurer's Office at 385-468-8300.

"We know our residents are experiencing both financial and emotional stress on a scale we haven't seen in a long time", said Ghorbani. "And we want them to know that the county is here for them. Because the nature of the information required to process tax-relief applications is highly sensitive, residents may be required to visit the Government Center and meet in-person with staff in the Treasurer's Office. We want to reassure taxpayers that precautions at the Government Center have been put in place to provide a safe location for those who have to visit."

The deadline to apply for tax relief is **September 1**. To streamline the process, beginning on August 24 the Treasurer's Office, including the nearby North Building Atrium, will be set up to serve residents safely during the on-going pandemic. This includes mandatory mask-wearing, hand sanitizer, and social distancing.

Along with the new layout, Treasurer Cushing states, "We will continue to take specific appointments but will be opening up for walk-ins. We will have employees available to answer questions and screen individual circumstances. We want all who qualify for property tax relief to get that relief."

Millcreek Way Water Main Replacement Project

What: The existing 6" cast iron water pipe will be replaced with 8" ductile iron water pipe. The new pipe will provide more capacity and increased reliability throughout the area.

Where: Millcreek Way, from 900 East to Carolyn Street, Hazel Arlene Circle

When: September-October 2020

Why: Salt Lake City Public Utilities is making improvements to the existing infrastructure by replacing pipe that has exceeded its useful service life

Businesses/Residents Should Expect:

- Notification prior to any potential road closures or detours
- Continued water service--minimal interruptions are anticipated
- Maintained access to residents with brief interruptions. Water trenches may be plated to provide access to residents
- Increase traffic congestion on Millcreek Way, but minimal traffic delays

Parley's Interchange Final Environmental Impact Statement and Record of Decision Are Now Available

SALT LAKE COUNTY – The Utah Department of Transportation announces the release of the Final Environmental Impact Statement (FEIS), and the official Record of Decision (ROD) for proposed improvements to the I-80/I-215 interchange (Parley's Interchange) in Salt Lake County, Utah.

The ROD constitutes UDOT's approval of Alternative B (Selected Alternative) as described in the Parley's Interchange and Section 4(f) Evaluation (Final EIS). UDOT prepared the EIS to identify improvements to address current and long-term mobility and safety needs of the interchange. Alternative B was selected as the alternative would result in the greatest reduction in travel delay, would cost the least, and avoids impacts to Parley's Way Park.

During the study process, UDOT consulted with affected and required agencies and gathered input from local governments, interested stakeholders and the public. Responses to public and agency comments to the Draft EIS are contained in the FEIS.

For more information about the study, or to read the FEIS and ROD, interested persons can view the documents at parlyseis.com or by clicking here.

DEADLINE TO APPLY AUGUST 31ST

The Pandemic-EBT or P-EBT Program is a nutrition assistance program for school aged children who were eligible to participate in free or reduced price school meals during the 2019-2020 school year. The Department of Workforce Services and the Utah State Board of Education are working together to issue the PEBT payment to eligible school aged children. The PEBT program is intended to provide a one-time, temporary payment to Utah families with eligible school aged children.
