SALT LAKE COUNTY ANIMAL SERVICES GARNERS NATIONAL AWARD

SALT LAKE COUNTY. Millcreek contracts with Salt Lake County to provide animal services to our residents. We are pleased to learn that this important Millcreek partner's Animal Control Officer Care (ACO) Program has been recognized with an Achievement Award from the National Association of Counties (NACo).

The ACO Cares Program identifies patrons throughout the county who are in the most need of veterinary assistance. Since 2018 the program has provided surgeries for nearly 400 animals whose owners did not have the means to pay for needed procedures.

Started in 1970, NACo's annual Achievement Awards program is designed to recognize county government innovations. We congratulate the team at Animal Services for this much deserved recognition.

Salt Lake County Animal Services is located at 511 W 3900 S, SLC. Hours of operation are Mon-Sat, 10 AM – 6 PM. Due to the pandemic, all services are done by appointment. For additional information call 385-468-7387, email animal@slco.org, visit AdoptUtahPets.org.

NEFF'S FIRE UPDATE

10/2/20 MESSAGE FROM THE U.S. FOREST SERVICE:

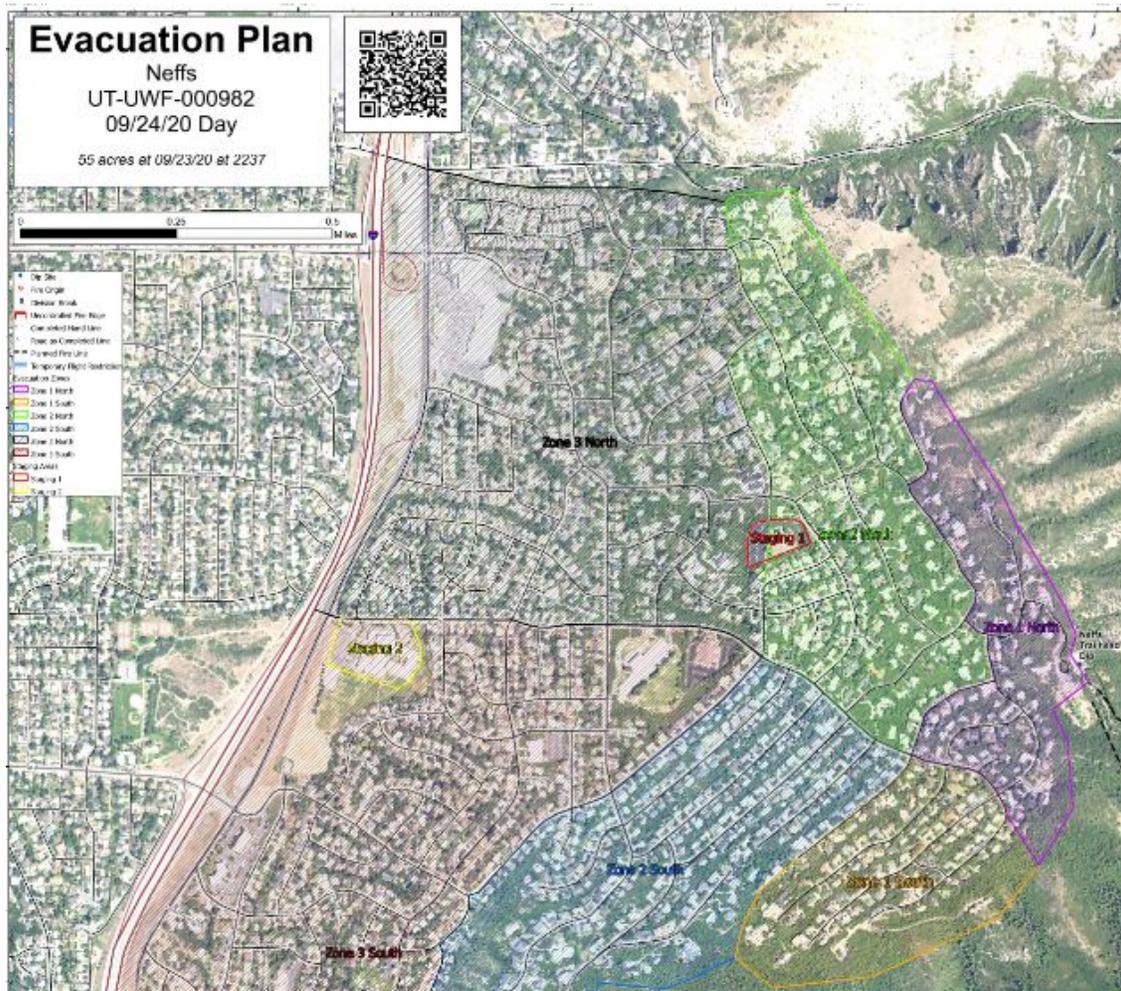

Fire behavior continues to be moderate with interior tree torching and creeping along the ground, with no new growth in acreage. Firefighters will patrol the eastern flank of the fire perimeter looking for any hot spots; helicopters are available as needed. On the western flank, firefighters are taking direct action where it is safe to do so, increasing containment over the next few days; others will continue clearing debris, chipping brush and limbs from the contingency line behind homes. Fire managers are working with the Forest Service READ (resource advisor), Agency Administrator, representatives from Forestry, Fire and State Lands, and Millcreek City to develop a fire suppression repair plan for areas behind the homes in the Olympus Cove community.

Utah is in extreme drought conditions with areas of exceptional drought. There has been very little recent precipitation, and none expected any time soon. These extremely dry conditions make our public lands vulnerable to wildfires. Fire restrictions have been implemented and extended in the State and Forest system lands. For more information go to: <https://www.fs.usda.gov/uwcnf> or <https://utahfireinfo.gov/fire-restrictions/>

Fire managers are working with the Forest Service to reduce the area closure stay tuned for more information!

Green Waste Chipping on Monday, Oct. 5 for Neff's Canyon Neighborhood

Olympus Cove residents, particularly those abutting the urban interface, have been asking how they can dispose of vegetation they are cutting in order to create fire defensible space on their property. We have coordinated with Unified Fire Authority to provide a chipping service this coming Monday, October 5, in the neighborhood designated Zone 1 North and South (in purple & yellow) on the evacuation plan map.

Residents should place branches from their property on the side of the roadway with the large cut ends facing the street. Chipping equipment will come through the neighborhood, and it will be the responsibility of the residents to haul the chips away or spread them in an appropriate location on their property.

We encourage residents to take advantage of this opportunity. Contact Rita Lund, rlund@millcreek.us, or 801-214-2707, with any questions.
