MILLCREEK. At the Millcreek City Council meeting on November 23rd, 2020, a [Proclamation of Millcreek as a Monarch City](#) was approved unanimously.

The Monarch butterfly is an iconic North American species. Its multigenerational migration and metamorphosis from caterpillar to butterfly has captured the imagination of millions of Americans, young and old. The Monarch pollinates many cultivated flowers and crops and is an indicator species for the ecological health of large geographic areas.

Monarch numbers have diminished dramatically due to many factors, including lack of stands of native milkweed, a plant that is necessary for the reproduction cycle. Monarchs additionally rely on nectar producing plants such as butterfly bushes.

The Proclamation asks Millcreek residents to make a difference for the Monarch by planting native nectar plants and milkweed to provide habitat.

Our planners have included nectar producing plants in plans for the Mountair Streetscape along Highland Drive. Plant varieties that assist the Monarch will be included in future open space planning where possible.

Millcreek has also applied for status as a Monarch City USA, and will be the second city in Utah to join. (Cedar Hill in Utah County is proud to be the first.)

Residents interested in obtaining milkweed seeds for their gardens can contact Rita Lund, [rlund@millcreek.us](mailto:rlund@millcreek.us), [801-214-2707](tel:801-214-2707).

Millcreek City Hall is hosting a FREE flu shot clinic on Tuesday, December 15th from 8am to noon. No appointments are necessary.

The standard dose flu vaccines this year are free of charge for everyone. If you would like to get high potency flu shots for extra protection, such as FluBlok or High Dose Flu, then you need to bring a proof of health insurance ID. FluBlok is recommended for people 50+ years old and those with medical conditions that affect their immune systems. High Dose is typically for people 65+ years old.
