ST MARK'S HOSPITAL BREAKS GROUND ON NEW PATIENT TOWER

MILLCREEK. Groundbreaking took place earlier today for construction of the new patient tower at the [MountainStar St. Mark's Hospital](#), located at 1200 E and 3900 S in Millcreek. We are fortunate

Agenda below

Join virtually [HERE](#)

to have this world class hospital in our City. It provides exceptional patient care to our residents and to people throughout the Intermountain West.

The new patient tower, scheduled for completion at the end of 2023, will allow the hospital to increase the size of patient rooms while continuing to provide the wide variety of medical services for which it is known.

The ER at St. Mark's Hospital, and all patient care services, will remain open during the duration of this project. The temporary ER-Entrance, open until June 21, is located just to the west of the old ER-Entrance Canopy. You can also access the Central Medical Office Building from this new entrance. Other commonly used entrances also will be disrupted. Please use the [new St. Mark's webpage](#) as a reference for how to enter the hospital, as well as to stay up-to-date on construction progress.

Map showing **temporary parking** during construction. Patient Parking is labeled in the green sections of the map. All patients and visitors are encouraged to utilize the free valet service located at the Main Entrance and Women's Pavilion.

With its initial six-beds, St. Mark's was established in 1872 by Bishop Daniel S. Tuttle in a small adobe building close to downtown Salt Lake City. The hospital was relocated twice before beginning construction in 1970 at its current Millcreek location. Local lore says that when it was built in the early 1970s, St. Mark's was the first hospital in the area with private patient rooms. But the cramped rooms are now one of the biggest complaints the hospital receives, so the new tower will have larger rooms for a better experience for patients, visitors, and the medical staff.

The [Utah Institute for Robotic Surgery](#), located in the hospital, allows St. Mark's surgeons to perform many types of procedures using minimally invasive methods. St. Mark's explains, "The technology offers 3D, high-definition vision into a surgical site, utilizing instruments that bend and rotate further than any human hand and providing a level of increased precision." The hospital also offers [online classes](#) ranging from "Exploring Weight Loss Options" to "Enjoying Your Birth Experience".

An amazing partner for Millcreek Emergency Management, the hospital has provided expertise, instruction, equipment and space for emergency preparation classes (online for now). See the [CERT Training notice](#) below

Wasatch Front Waste & Recycling Area Cleanup Program

The Area Cleanup Program (ACUP) will be coming to Millcreek in **September** this year. Due to continued staffing issues, the Board approved to provide the ACUP service the same way as it was provided in 2020. That means that residents have the opportunity to reserve a container on a first come-first served basis, and the

container will be delivered to their home rather than dropped off on the street.

You will receive a postcard in the mail three to four weeks in advance of your scheduled ACUP time. You will then be able to reserve a container for the date(s) available to you. You will need to complete a release of liability to reserve a container.

To contact WFWRD for updates, visit <https://wasatchfrontwaste.org/area-clean-up> or call [385-468-6325](tel:385-468-6325).
