Community Wildfire Preparedness Plan

For the Wildland Urban Interface (WUI)

2021

Department of Natural Resources
Division of Forestry, Fire and State Lands
1594 W North Temple, PO Box 145703, Salt Lake City, UT 84114-5703

Declaration and Concurrence Page

Adopting this CWPP doesn't mean you are fully engaged in the CWS process. Other participation and documentation are required for State delegated fire funding. Please consult with Utah State Forestry, Fire & State Lands in your area to ensure the process is complete. This list needs to be customized to the individual plan. Provide the names and affiliations of all cooperators. This page will then be signed after all cooperators have reviewed the plan and concur with its contents.

This document provides the outline for and specifies the information recommended for inclusion in a wildfire preparedness plan. Completed Community Wildfire Preparedness Plans should be submitted to the local Area Manager or Fire Management Officer with the Utah Division of Forestry, Fire and State Lands for final concurrence.

Millcreek CWPP

MILLCREEK, UTAH
RESOLUTION NO. 21-17

**A RESOLUTION ADOPTING THE 2021 MILLCREEK COMMUNITY WILDFIRE
PREPAREDNESS PLAN (CWPP)**

WHEREAS, the Millcreek Council (the "Council") met in regular session on May 10, 2021, to consider, among other things, adopting a resolution adopting the 2021 Millcreek Community Wildfire Preparedness Plan for wildland urban interface; and

WHEREAS, the Council recognizes the threat that wildfire can pose to citizens of the community and the protection of private property and community infrastructure, especially the communities that are in a wildland urban interface zone; and

WHEREAS, the 2021 Millcreek Community Wildfire Preparedness Plan, a copy of which is attached hereto, identifies the history of wildfire in the area, past accomplishments, and future goals in wildfire prevention, preparedness, mitigation, and maintenance; and

WHEREAS, Millcreek Emergency Management, Millcreek leadership, and the State of Utah have reviewed said documentation and recommend that the City adopt the Millcreek Community Wildfire Preparedness Plan to help satisfy community wildfire preparedness; and

WHEREAS, adoption by the Millcreek Council demonstrates their commitment to maintaining wildfire safety, education, and preparedness within the community, as outlined in the 2021 Millcreek Community Wildfire Preparedness Plan.

NOW THEREFORE, BE IT RESOLVED by the Council that the attached 2021 Millcreek Community Wildfire Preparedness Plan is hereby approved and adopted.

This resolution, assigned No. 21-17, shall be effective on the date it is adopted.

PASSED AND APPROVED this 10th day of May 2021.

MILLCREEK

INTRODUCTION

Over 600 of Utah's communities have been classified as "at risk" of wildfire. The safety of the citizens of any community and the protection of private property and community infrastructure is a shared responsibility between the citizens; the owner, developer or association; and the local, county, state and federal governments. **The primary responsibility, however, remains with the local government and the citizen/owner.**

The purpose of wildfire preparedness planning is to...

- Motivate and empower local government, communities, and property owners to organize, plan, and take action on issues impacting the safety and resilience of values at risk
- Enhance levels of fire resilience and protection to the communities and infrastructure
- Identify the threat of wildland fires in the area
- Identify strategies to reduce the risks to structures, infrastructure and commerce in the community during a wildfire
- Identify wildfire hazards, education, and mitigation actions needed to reduce risk
- Transfer practical knowledge through collaboration between stakeholders toward common goals and objectives

Outcomes of wildfire preparedness planning...

- Facilitate organization of sustainable efforts to guide planning and implementation of actions:
1. Fire adapted communities 2. Resilient landscapes 3. Safe and effective fire response
- Improve community safety through:
 - ✓ Coordination and collaboration
 - ✓ Public awareness and education
 - ✓ Firefighter training
 - ✓ Fuel modification
 - ✓ Improved fire response capabilities
 - ✓ Fire prevention
 - ✓ Development of long-term strategies

RESOURCES

For resources to complete a wildfire preparedness plan for your community, consider organizations such as the following:

- ✓ Local / Primary fire protection provider
- ✓ Local Resource, Conservation and Development Districts
- ✓ Utah Division of Forestry, Fire and State Lands
- ✓ Utah State Fire Marshal (Dept. of Public Safety)
- ✓ Utah Division of Emergency Management
- ✓ Utah Living With Fire
- ✓ Local fire agencies
- ✓ Local emergency management services
- ✓ USDA Forest Service
- ✓ U.S. Department of Interior Agencies
- ✓ Utah Resource Conservation Districts
- ✓ Utah Soil Conservation Districts

STATEMENT OF LIABILITY

The activities suggested by this template, associated checklist and guidance document, the assessments and recommendations of fire officials, and the plans and projects outlined by the community wildfire council, are made in good faith according to information available at this time. The Utah Division of Forestry, Fire and State Lands assumes no liability and makes no guarantees regarding the level of success users of this plan will experience. Wildfire still occurs, despite efforts to prevent it or contain it; the intention of all decisions and actions made under this plan is to reduce the potential for, and the consequences of, wildfire.

Last revised March 2016

Millcreek CWPP

PLANNING OVERVIEW

Briefly describe the overall planning process that took place to complete this plan. Be sure to include a timeline of the events/meetings, the organizations and partners that participated, a description of why this planning process was initiated, and the overall intended outcome of the process, and how outcomes were accomplished. This is much like the information described above (purpose and outcome) but tailored to your community. If desired, please acknowledge any individuals or organizations that were essential to accomplishing the final plan.

3/14/2017 - CWPP Fire Council planning meeting at UFA Station #106 with Mt. Olympus Community Council, FFSL, UFA and other community members.

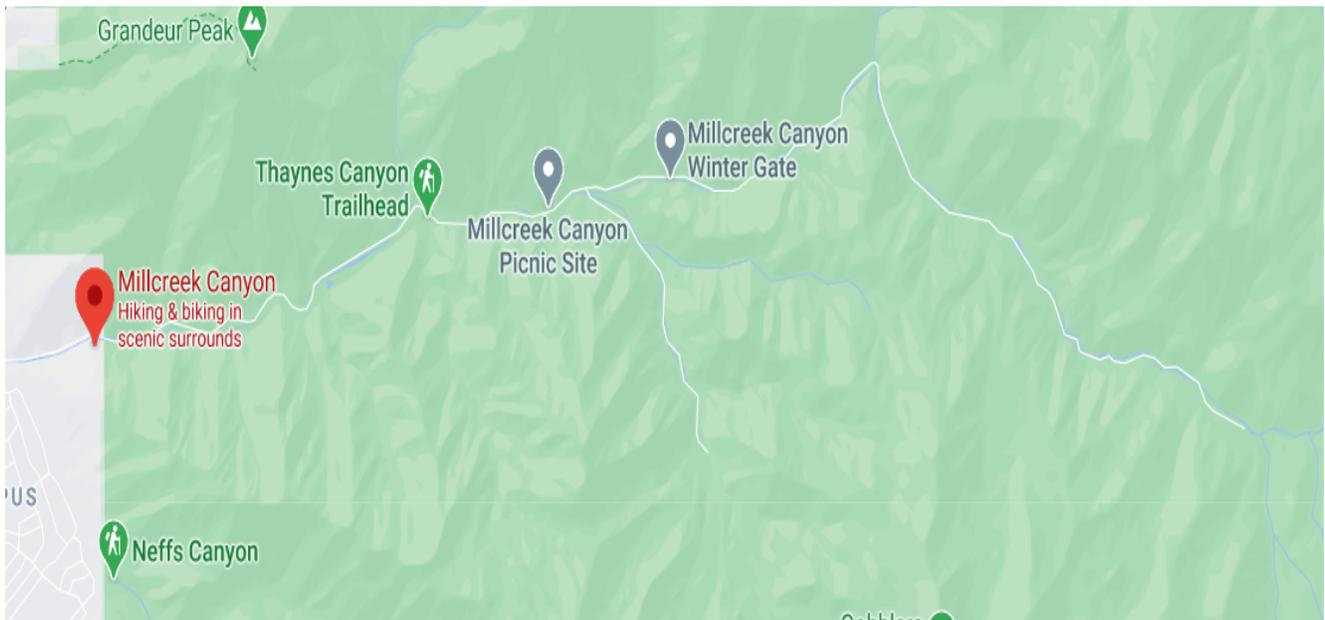

9/14/2017 - CWPP planning meeting at UFA Station #106 with FFSL, UFA and the USFS.

10/4/2017 - CWPP Fire Council meeting at UFA Station #106. Meeting goal to develop community mitigation actions for implementation.

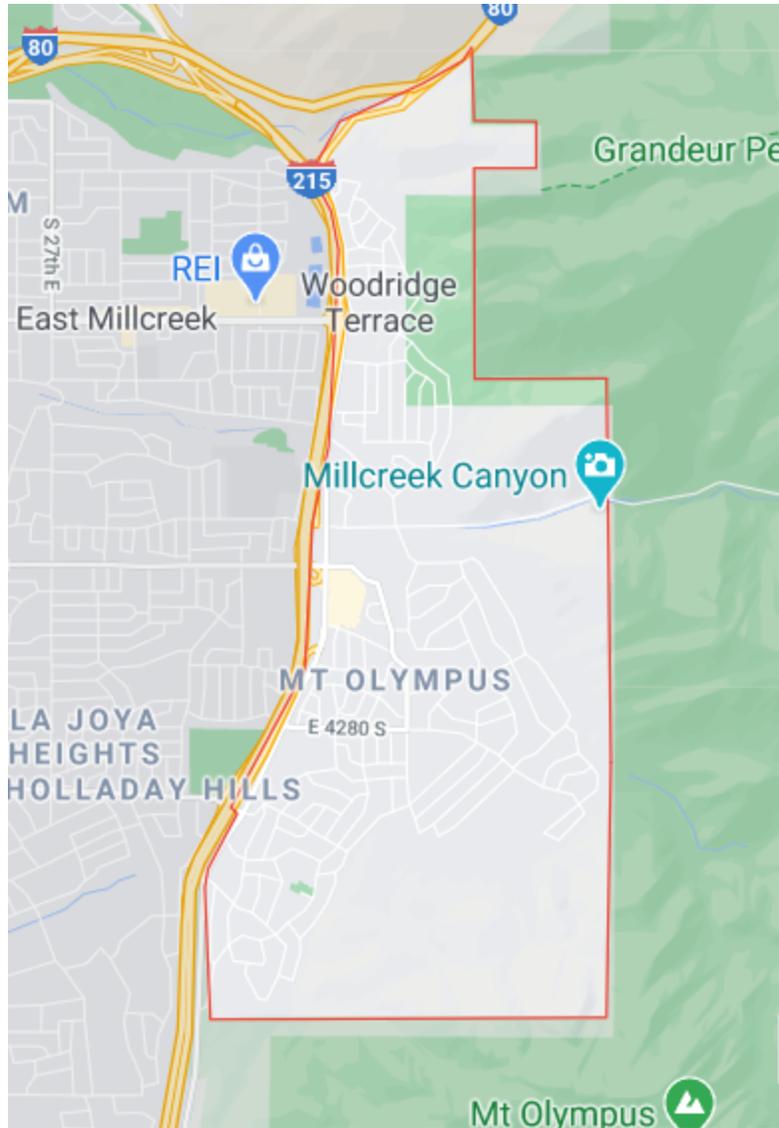

11/27-28/2017 - Solicited community contacts and individuals to take lead roles on community goals and actions.

4/1/2021 - Wasatch Front Area Wildland Urban Interface (WUI) Coordinator Dax Reid initiated the CWPP update with Andrew Clark. Elements from the 2017 plan were added. Adopted and signed CWPP is valid for 5 years.

GPS Coordinates =

PARTNERSHIPS AND COLLABORATION

Millcreek Canyon is managed by the USFS and Salt Lake County. The canyon has two commercial entities (Millcreek Inn and Log Haven) and two cabin communities (Porter Fork and The Firs). Fire danger is considerable and the USFS and SLCo have partnered with the community HOAs, Central Wasatch Commission, SL Public Utilities, U.S. Forest Service and Forestry, Fire & State Lands to partner on project identification, prioritization, implementation and maintenance regarding hazardous fuels mitigation and defensible space in the canyon. Some suggested cross-jurisdictional priorities include; Parleys Historic Nature Park, Millcreek Canyon Road and Neff's Canyon.

Millcreek CWPP

PART I COMMUNITY DESCRIPTION

Community Legal Structure			
List the government entities associated with the community – city, town, unincorporated community, special service district, homeowner association(s), other.			
Organization	Contact Person	Phone Number	E-mail
Millcreek Mayor	Jeff Silvestrini		jsilvestrini@millcreek.us
Millcreek Emergency Manager	Andrew Clark		aclark@millcreek.us
Olympus Cove Community Council - Chair	David Baird		davidbaird70@yahoo.com
East Millcreek Community Council	Nancy Carlson-Gotts		n.carlsongotts@comcast.net
Canyon Rim Citizen's Association	Jeff Waters		jeffgolfguy@comcast.net
Millcreek Community Council - Chair	Diane Angus		dangusmail@yahoo.com
Unified Fire Authority	Rob Ayres		rayres@unifiedfire.org
Unified Police Department	Steve DeBry		sdebry@updsl.org
SLC Public Utilities	Laura Briefer		laura.briefer@slcgov.com
U.S. Forest Service			
Jordan River Commission			

Population – all focus areas	
Approximate number of homes	26,000
Approximate number of lots	
Approximate number of commercial entities	
Approximate number of full-time residents	60,000
Approximated number of part-time residents	
<i>Notes/comments:</i>	

Millcreek CWPP

Restricting Covenants, Ordinances, etc. (Attach as appendix) – all focus areas

For example, home association bylaws may have requirements regarding building construction materials or vegetation removal, or regarding access in a gated community.

Source	Details
SL County	Foothill and Canyons Overlay Zone (FCOZ)
SL County	SL County WUI Fire Annex

Access – Enter Focus Area 1

Directions to community

3800 South east of Wasatch Blvd. Millcreek Canyon is a Fee Service Area. Public vehicles are allowed up the canyon to Maple Grove (winter gate) year-round. Many gated / locked communities exist throughout the city.

Seasonal access

Travel beyond the winter gate is limited from November 1 to June 30 and is primarily foot traffic and service vehicles. Cabin owners at The Firs are provided keys to the gate and can drive through the winter gate to access the cabins even when the gate is closed seasonally.

Roads – Enter Focus Area 1

	None	Some	All	Adequate	Inadequate	% Pavement	% gravel	% dirt
Road signs present								
Will support normal flow of traffic								
Are loop roads								
Are dead-end roads								
Turnaround space available at end of road for emergency equipment								

Notes/comments:

Driveways – Enter Focus Area 1

	Adequate	Inadequate	None	Few	Most	All

Millcreek CWPP

Most driveways width and height clearance, road grades and vegetation appearance are...						
Individual homeowners have posted their name and address						
<i>Notes/comments:</i>						

Structures – Enter Focus Area 1						
	None	Few	Some	Many	Most	All
Wood frame construction						
Have wood decks or porches						
Have wood, shake or shingle roofs						
Are visible from the main subdivision road						
<i>Notes/comments:</i>						

Bridges, Gate, Culverts, other – Enter Focus Area 1			
	None	Some	All
Bridges support emergency equipment			
Gate provides easy access to emergency equipment			
Culverts are easily crossed by emergency equipment			
<i>Notes/comments:</i>			

Utilities – Enter Focus Area 1						
	Below ground	Above ground	Provided by	Phone number	% marked with a flag or other highly visible means	% utilized
Telephone service						
Electrical service						
Are there homes utilizing propane?						
Are there homes utilizing natural gas?						
<i>Notes/comments:</i>						

Millcreek CWPP

List locations of propane tanks above ground – all focus areas		
Owner	Address, lat/long, etc.	Size
<i>Notes/comments:</i>		

Primary Water Sources – all focus areas			
Approximate % homes using central water system			
Approximate % homes using individual wells			
Approximate % homes having additional private water source			
Water provided by			
<i>Notes/comments:</i>			

List locations of water sources – all focus areas		
Owner	Address, lat/long, etc.	Accessible
<i>Notes/comments:</i>		

PART II: RISK ASSESSMENT

Estimated Values at Risk	
Provide an approximation of the estimated current values of residential and commercial property in the area. The County Assessor should be able to assist with this information.	
Estimated values at risk of commercial and residential property	
Year	

Millcreek CWPP

Natural Resources at Risk

Describe the natural resources at risk in the area, such as watershed, forest products, wildlife, recreation tourism, etc.

Neff's Canyon Recreation Area, Mt. Olympus Wilderness, Millcreek Canyon Recreation Area, Tanner's Park, Parley's Creek, Neff's Creek, Jordan River Parkway, Jordan River, Aesthetics, water quality, soil health, habitat, recreation

The following information is based on the Communities At Risk (CARs) list that was developed cooperatively at the local and state level to assist land management agencies and other stakeholders in determining the scope of the WUI challenge and to monitor progress in mitigating the hazards in these areas. This information is updated annually through the interagency fuel groups. Input the fields that are reflected on the state list found on our website at forestry.utah.gov.

Fire Occurrence: Number of fires in the area for the last 10 years _____ to _____			
	0	No Risk	
	1	Moderate	0 to 1 fire
	2	High	2 to 14 fires
	3	Extreme	Greater than 14 fires
Rating	2		

Area Fire History			
Name	Acres Burned	Year	Cause
Neff's Canyon Fire	80	2020	Lightning
Millcreek Fire	15	2020	Power line

Fuel Hazard: Assess the fuel conditions of the landscape and surrounding the community			
	0	No Risk	
	1	Moderate	Moderate to low to control, fire intensities would generally cause moderate damage to resources based on slope, wind speed and fuel. Vegetation Types: Ponderosa pine/mountain shrub, grassland, alpine, dry meadow, desert grassland, Ponderosa pine, Aspen and mountain riparian.
	2	High	High resistance to control, high to moderate intensity resulting in high to moderate damage to resources depending on slope, rate of spread, wind speed and fuel loading. Vegetation Type: Maple, mountain shrubs, sagebrush,

Millcreek CWPP

			sagebrush/perennial grass, salt desert scrub, Black Brush, Creosote and Greasewood.
	3	Extreme	High resistance to control, extreme intensity level resulting in almost complete combustion of vegetation and possible damage to soils and seed sources depending on slopes, wind speed, rate of spread and fuel loading.
Rating			

Values Protected: Evaluate the human and economic values associated with the community or landscape, such as homes, businesses and community infrastructure.			
	0	No Risk	
	1	Moderate	Secondary Development: This would be seasonal or secondary housing and recreational facilities.
	2	High	Primary Development: This would include primary residential housing, commercial and business areas.
	3	Extreme	Community infrastructure and community support: This would be water systems, utilities, transportation systems, critical care facilities, schools manufacturing and industrial sites. It may also include valuable commercial timber stands, municipal watersheds and areas of high historical, cultural and/or spiritual significance which support and/or are critical to the well-being of the community.
Rating	2		

Insurance Rating	
Provide the current insurance rating for the community	
ISO Fire Insurance Rating:	

Protection Capabilities: Insurance Services Organization (ISO) rating for the community will serve as an overall indicator of the protection capabilities.			
	1	Moderate	ISO Rating of 6 or lower
	2	High	ISO Rating 7 to 9
	3	Extreme	ISO Rating 10
Rating			

Fire Occurrence	Fuel Hazard	Values Protected	Fire Protection Capabilities	Overall Rating
Total: 4-7 Moderate, 8-11 High, 12 Extreme				

Millcreek CWPP

The following information is based on the Utah Wildfire Risk Assessment Portal (UWRAP) and Area of Interest (AOI) Summary Reporting Tool. Reports are generated using a set of predefined map products developed by the West Wide Wildfire Risk Assessment (2012) project. The UWRAP provides a consistent, comparable set of scientific results to be used as a foundation for wildfire mitigation and prevention planning in Utah.

Wildland Development Area (WUI) Impacts: Data set is derived using a Response Function modeling approach. To calculate the Wildland Development Area Impact Response Function Score, the Wildland Development Area housing density data was combined with flame length data and Response Functions assignments to represent potential impacts.

Wildfire Threat: A number that is closely related to the likelihood of an acre burning.

Wildfire Risk: Combines the likelihood of a fire occurring (Threat), with those of areas of most concern that are adversely impacted by fire (Fire Effects). Wildfire Threat Index is derived from historical fire occurrence, landscape characteristics including surface fuels and canopy fuels, percentile weather derived from historical weather observations and terrain conditions. Fire Effects are compiled of Value Impacts and Suppression Difficulty factors.

	Total Acres AOI for each Category with the percentages added		
	Wildfire Risk	WUI Impacts	Wildfire Threat
Low (1-4)			17,082 / 38.3%
Moderate (5-7)			22,895 / 51.2%
High (8-10)			4.65310 / 4%

Including maps from the UWRAP report may also be beneficial in this section. Consider using the following as an example.

- Location Specific Ignitions
- Ignition and Fire occurrence density
- Water Impacts
- Rate of Spread
- Suppression Difficulty
- Fire Effects
- Slope and aspect

Prevention: Activities directed at reducing the occurrence of fires, including public education, law enforcement, and personal contact.

Preparedness: Activities that lead to a state of response readiness to contain the effects of wildfire to minimize loss of life, injury, and damage to property. Including access to home/community, combustibility of homes/structures and creating survivable space.

Millcreek CWPP

Mitigation: Actions that are implemented to reduce or eliminate risks to persons, property or natural resources including fuel treatments and reduction.

Maintenance: The process of preserving actions that have occurred including fuel treatments and reduction.

Past Accomplishments	
Prevention	<ul style="list-style-type: none"> • Annual community planning meeting • Developed Community Wildfire Prevention Plan (CWPP) in collaboration with Forestry, Fire & State Lands (FFSL), USFS, UFA, SL Public Utilities and SL County (2021) • Mt. Olympus Community Council held community safety fairs / events with UFA (annually) • UFA has trained wildland firefighters and apparatus to respond in the event of a wildfire (annually) •
Preparedness	<ul style="list-style-type: none"> • Community theft protection, limited gate access, cabin owner defensible space efforts and private hazard tree removal • Work with Rocky Mountain Power (RMP) and the USFS on EMS response capability and reduction of fire risk from power lines • Re-paved road improving resident and EMS access (2020) • Worked with legislature on fireworks restrictions during high fire danger and in high risk areas of the city (2018) • Assessed the need for rebuilding UFA Station #112 in Olympus Cove •
Mitigation	<ul style="list-style-type: none"> • Partnered with FFSL, UFA and USFS on hazard tree removal, chipping and defensible space (2020) • Worked with USFS to address recreational fires in Neff's Canyon (2018) • Worked with UPD to develop a community evacuation plan and provide education to the public and responding resources (2018) • Planned and implemented chipper days with UFA and FFSL (2018) • Worked with the Jordan River Commission (JRC) on reducing fuels along the Jordan River corridor •
Maintenance	<ul style="list-style-type: none"> • Annual review of area projects • Annual review of CWPP with updates to Past Accomplishments and Goals •

PART III: RISK REDUCTION GOALS/ ACTIONS

Goals of Plan: Provide a brief statement under the Prevention, Preparedness, Mitigation and Maintenance goals. These should align with the pillars of the National Cohesive Strategy and the Utah Catastrophic Wildfire Reduction Strategy (1. Resilient Landscapes 2. Fire Adapted Communities 3. Wildfire Response).

Millcreek CWPP

Identification of Actions: Provide detailed project information. These projects/actions can be mapped/tracked in the Utah WRA portal and should be consistent with a Cooperative Agreement in compliance with the Wildfire Policy if applicable.

GOAL A: PREVENTION – Activities directed at reducing the occurrence of fires, including public education, law enforcement, and personal contact.

A.1 - Prevention			
Actions:	Timeline:	Community Lead:	Priority:
Ready, Set, Go! information outreach	Annually	HOA / UFA / FFSL	Medium
Defensible space information outreach	Annually	HOA / UFA / FFSL	High
Notes, updates, and monitoring			

GOAL B: PREPAREDNESS – Activities that lead to a state of response readiness to contain the effects of wildfire to minimize loss of life, injury, and damage to property. Including access to home/community, combustibility of homes/structures and creating survivable space.

Goal B.1 – Evaluate, upgrade and maintain community wildfire preparation			
Action(s):	Timeline:	Community Lead:	Priority:
Develop and adopt CWPP (5-year shelf life)	2021	FFSL / UFA / USFS / SLCPU / HOA / Millcreek	High
Lot assessments	2021-2026	UFA / FFSL	High
Identify and update community evacuation plan	2021-2026	HOA / FFSL / UFA / Millcreek	High
Added evacuation and other signage as needed for EMS responders	2021-2026	HOA / USFS / UFA / Millcreek	High
Install KNOX BOX on gate post near canyon road	2021	UFA	High
Notes, updates, and monitoring			

Goal B.2 – Educate community members to prepare for and respond to wildfire.			
Action(s):	Timeline:	Community Lead:	Priority:
Firewise certification	2021-2022	HOA / FFSL / Millcreek	Medium

Millcreek CWPP

Community education events and chipper day(s)	2021-2026	HOA / FFSL / UFA	High
Neff's Canyon Trailhead Redesign (easier means of egress, expanding parking lot to 30 additional parking stalls, additional area for staging, 16,000-gallon Heliwell tank, Helicopter Landing pad, trailhead improvements, etc.)	2021-2026	FFSL / SLCo / Millcreek / USFS	Medium
<i>Notes, updates, and monitoring</i>			

Goal B.3 – Address identified regulatory issues impacting community wildfire prevention and response needs.			
Action(s):	Timeline:	Community Lead:	Priority:
Update restrictions, covenants and ordinances affecting wildfire response and mitigation in this plan including: FCOZ, SL County, HOA etc	2021-2026	HOA	High
<i>Notes, updates, and monitoring</i>			

Goal B.4 – Evaluate response facilities and equipment.			
Action(s):	Timeline:	Community Lead:	Priority:
Work with Rocky Mountain Power and USFS to ensure energized lines are cleared and upgraded	2021-2026	RMP / USFS / HOA	High
<i>Notes, updates, and monitoring</i>			

GOAL C: MITIGATION – Actions that are implemented to reduce or eliminate risks to persons, property or natural resources including fuel treatments and reduction.

Goal C.1 – Decrease fuels within the community to reduce wildfire impact in and around the community.			
Action(s):	Timeline:	Community Lead:	Priority:
Identify target areas for prioritized fuel mitigation efforts	2020-2026	HOA / UFA / FFSL / USFS	High
<i>Notes, updates, and monitoring</i>			

Goal C.2 – Work with local, state and federal fire officials to decrease fuels on private and adjacent public lands to reduce wildfire intensity and impact in and around the community.			
Action(s):	Timeline:	Community Lead:	Priority:

Millcreek CWPP

Identify ways to leverage funding and resources	2021-2026	HOA / UFA / FFSL	High
Work with surrounding cities and land managers for cross-boundary mitigation projects	2021-2022	HOA / UFA / FFSL / USFS / SL County	High
<i>Notes, updates, and monitoring</i>			

GOAL D: MAINTENANCE – The process of preserving actions that have occurred including fuel treatments and reduction.

Goal D.1 - Regularly evaluate, update and maintain project commitments.			
Action(s):	Timeline:	Community Lead:	Priority:
Annually update CWPP goals and priorities with maps	Annually	Dax Reid / SL County Fire Warden / UFA	High
Review and evaluate past projects for successes, lessons learned and re-treatments	2021-2026	HOA / UFA / FFSL / Liaisons	Medium
<i>Notes, updates, and monitoring</i>			

PART IV: CONTACTS

The contacts in this part identify community resources that can be used to complete the goals of the plan.
