MILLCREEK. The long awaited pickleball court construction is finally underway at Canyon Rim Park. In the planning and funding phase since 2021, construction started this week and will continue through the summer with completion scheduled near the end of August (weather permitting).

Beginning soon after incorporation, the city council began to receive requests from Millcreek residents to provide pickleball courts. The tennis courts at Canyon Rim Park were in terrible shape and could not be repaired and it was determined that location would be a good place for pickleball.

The courts located in the northwest corner of the park will offer eight regular and two competition sized courts for the pickleball enthusiasts in our community to enjoy.

We have had close communication with Canyon Rim Academy and a safe plan to provide drop-off and pick-up of students has been designed and appears to be working properly.

There has also been close coordination with the adjoining Church of Jesus Christ of Latter-Day Saints Stake Center and a new small parking area will be installed for pickleball players and other park users to mitigate any impacts to the congregation members.

Noise reducing screening is planned for the north and west sides of the courts to minimize noise impacts to the church and school.

Unfortunately, six trees had to be removed to accommodate construction and plans call for planting of 13 shade trees, 3 conifers, and various drought tolerant shrubs and grasses around the site.

Park users might also notice the newly installed playground on the east side. The final touch, a swing set installation, is underway and neighborhood kids will soon be able to enjoy the entire new and improved playground.

On our list of important projects is the installation of a new irrigation system in the park, replacing the current system that was installed when the park was originally built. The irrigation system is an extremely costly project, and the city is exploring all avenues to acquire the needed funding.

Canyon Rim Park is a jewel in our city, and we are excited to make active recreation improvements while keeping a large passive open space for residents to enjoy.
