plan Mountair
Streetscape**

Saturday, 2/23/19
9:30-10:30 AM
Adib's Rug Gallery
3092 S. Highland Dr.
See agenda below

MILLCREEK. [The University of Utah Seismographic Stations reports](#) that more than a dozen small earthquakes shook Draper early this morning. The two larger ones, rated 3.2 and 3.7 on the Richter scale, were felt throughout the Salt Lake and Utah valleys. [Click here](#) to see the USGS map showing the extent of the shaking.

These earthquakes are a good reminder of the risks of seismic activity along the Wasatch Front. The Utah Department of Public Safety says that we have, on average, eight earthquakes per year that are a magnitude 3.0.

We all need to understand the risk of earthquakes in Utah, and prepare for them. [Putting Down Roots in Earthquake Country](#), published by the Utah Seismic Safety Commission, should be required reading for everyone who lives or works along the Wasatch Front.

This 36-page guide explains the dangers of earthquakes -- why you should care and why you should prepare. It recommends that we all take the following seven steps:

BEFORE A QUAKE:

- STEP 1. Identify potential hazards in your home and begin to fix them (page 22).**
- STEP 2. Create a disaster-preparedness plan (page 24).**
- STEP 3. Prepare disaster supply kits (page 25).**
- STEP 4. Identify your building's potential weaknesses and begin to fix them (page 26).**

DURING A QUAKE:

- STEP 5. Protect yourself during earthquake shaking (page 28).**

AFTER A QUAKE:

- STEP 6. After the earthquake, check for injuries and damage (page 29).**
- STEP 7. When safe, continue to follow your disaster-preparedness plan (page 30).**

For more information on this morning's earthquakes, visit the Utah Dept. of Public Safety's [news release](#) and the USGS University of Utah [Seismic Event Tracking Page](#). They want to know what you felt this morning.

Please, take some time to keep your family safe.

IMPORTANT NOTICE - TRAFFIC INTERRUPTION

A Salt Lake City waterline break has occurred at the intersection of Wasatch Blvd and Upland Drive. We have notified Salt Lake City and they have water crews on site conducting excavation and repairs. Traffic will be impacted throughout the weekend and may also impact Monday morning school traffic. Please be careful in the area.

MOUNTAIR STREETSCAPE PLANNING WORKSHOP NEXT WEEKEND

MILLCREEK. The city has acquired new open space -- a strip of property along Highland Drive located between 3000 South and about 3100 South. This

area has been known for its lilac bushes, once quite lush, but now past their prime. The strip has long served as a partition between the Mountain subdivision and Highland Drive.

Everyone is invited to a community workshop to gather input on the future of this community open space.

**When: Saturday,
February 23, 9:30-
10:30 am**

**Where: Adib's Rug
Gallery – 3092
South Highland
Drive**

In early discussions with nearby residents, we heard that the City deserved a beautiful, well landscaped space that emphasized passive recreation (as opposed to things like playgrounds) and provided some sound and visual barriers to the residents east of the streetscape. We are also receiving a donation for a Millcreek water wheel entry sign, that will need to be placed somewhere in the streetscape.

Also at the meeting our staff would like to share with you some ideas about the future of Highland Drive.

Mountainous Planning District Seeks Commissioners

MILLCREEK. There are currently several vacancies on the Mountainous Planning District's Planning Commission. Millcreek's mayor has the opportunity to recommend three people to County Mayor Jenny Wilson, who will make appointments with advice and consent from the County Council.

The Mountainous Planning District was established by Salt Lake County several years ago to consider long-range planning and policy within the Central Wasatch Mountains. As a regional resource, these mountains affect a broad spectrum of people throughout the Salt Lake Valley.

The Commission is currently working on the Wasatch Canyons General Plan. It also regularly reviews and makes recommendations to the County Council on proposed plans, zoning changes and land use regulations in this area.

Millcreek has one seat on the Commission, which is comprised of nine commissioners and two at-large alternates.

Appointments are for a term of three years. The Commission meets on the first Thursday of each month at 4 PM at the City/County complex. Annual training sessions plus field trips are also part of the time commitment. Interested persons can contact Rita Lund, rlund@millcreek.us.

THINGS TO REMEMBER ABOUT SNOWSTORMS

CLEAR THE TOP OF YOUR BLUE CAN

Water contaminates paper recycling; melted snow in a load of recycling can turn an entire truckload of recycling into garbage. Please clear the snow from the top of your recycling can.

CLEAR AROUND YOUR FIRE HYDRANT

Having a fire hydrant clear lets the firefighters get right

to work without first having to dig it out. Please clear snow from a 3' diameter around fire hydrants on hour property, and also a path to the street.

GET YOUR CARS OFF THE STREET

Snowplow drivers who clear Millcreek streets have been authorized to skip those that cannot be safely be cleared because of parked cars. At least four Millcreek streets were skipped in the last round of storms. Please get your cars off the street when it snows.

PET LICENSING CLINIC AT CITY HALL ON THURSDAY

Don't Forget to License Your Pet!

Who: Pet licensing is required in ALL of Salt Lake County. A rabies tag or ID tag is not a valid pet license.

What: A license is a form of identification that makes your pet a legal member of the community. And informs Animal Control Officers your pet has a current rabies vaccine.

Why: Licensing allows your pet to be easily identified and returned to you. Most importantly, it's the LAW.

When: Pets must be licensed within 30 days of getting your new pet or moving to a new area. Or before he/she has reached 5 months of age.

Where to License Your Pet

Test to Determine Stormwater Infrastructure to be Conducted

MILLCREEK. A test to evaluate stormwater infrastructure connectivity may temporarily change the color of Mill Creek on Tuesday morning.

The Dept. of Civil and Environmental Engineering at the University of Utah, in coordination with the Salt Lake County Dept. of Health, will place Rhodamine dye in the 36 inch stormdrain that daylight on the Golf the Round course near

the Central Valley Water Reclamation Facility at 800 West Central Valley Road. The pipe discharges into Mill Creek at 900 West.

The study will be conducted on Tuesday morning, February 19th, between 9 and 11 AM. It is anticipated that there will be minimal to no color change by the time the dye reaches Millcreek.

Millcreek needs a public works inspector.
