Upper Mill Creek Canyon Road is Reopening for Winter Recreation!

We're excited to announce that the Upper Millcreek Canyon Road will reopen for non-motorized winter recreation from December 15, 2025, through March 15, 2026. All winter recreation beyond the gate will operate similar to previous winters, giving visitors the familiar seasonal experience they expect.

Minor Changes This Winter

This winter, the seasonal "winter gate" has been moved slightly down the canyon near the Terraces Boardwalk, matching the location used during summer construction.

Parking is available at this temporary gate, and recreation will continue beyond it as usual. Because of this shift, the traditional Winter Gate parking lot will remain closed for the season.

Snow Conditions and Early-Season Expectations

To safely complete the final construction tasks and allow crews to remove equipment, the roadway beyond the gate was plowed. As a result, visitors may encounter lighter or drier conditions until snowfall rebuilds the snowpack.

Season Duration and Preparing the Canyon for Use

The road will remain open for winter recreation until March 15, when construction will resume for the final phase of the Upper Mill Creek Canyon Road Improvement Project.

Project partners put significant effort into safely shutting down construction and preparing the area for public use because we know how important winter access is to the community.

Completing the remaining work before winter of 2026 will help ensure a fully open, uninterrupted winter recreation season in 2026–2027.

Holiday Wrapping for a Greener Season

Don't Forget About Sustainability During the Holiday Season - Here Are Some Hints From our Friends at Wasatch Front Waste & Recycling

The holidays are a time for giving and nothing builds excitement quite like a beautifully wrapped gift. But that festive paper can create a surprising amount of waste. Each year, Americans use an estimated 4.6 million pounds of wrapping paper, and about half of it can't be recycled because of metallic coatings, glitter, or plastic films.

Those shiny designs may look cheerful, but they're made from mixed materials that can't be separated during the recycling process. This year, make the season a little greener by choosing simple, paper-only wrapping without metallic coatings or plastic layers.

Looking for creative alternatives? Try brown kraft paper, newspaper, old maps, or your child's artwork. Kid made wrapping adds a unique touch that family and friends love. After the gifts are opened, recycle clean, non-metallic wrapping paper in your recycle can, and keep ribbons, bows, and glittered wrap out, they belong in the trash. A few thoughtful choices can help keep holiday cheer high and waste low!
